Linux

LANGUAGES

- 🇹🇷 Turkish — Native
🇬🇧 English — Professional

Kemal Kondakçı

AI Engineer · Software Engineer

Building reliable AI & .NET systems with measurable impact.

PROFILE

AI Engineer & Software Developer specializing in production-grade AI systems and robust .NET applications, with a strong focus on DevOps. I design and ship full-stack products end to end — from LLM-powered backends to cross-platform mobile apps — and run them with Docker, CI/CD pipelines and cloud (AWS) deployments.

EXPERIENCE

- Software Development Specialist · MODSOFT** 05/2023 — Present
Bilişim
- AI-powered modules and .NET-based services.
 - Performance monitoring & measurable improvements.
- IT Support Specialist · QUALA NETWORKS** 03/2022 — 05/2023
- System support, automation and internal tooling.
- Intern · İSBAK** 06/2019 — 07/2019
- Support for R&D processes.

SELECTED PROJECTS

- BUDDAI** Python · AI/LLM
“Living” AI chat core — persona engine, persistent memory & human-like behavior.
- Lucido** Flutter · FastAPI
AI dream-interpretation mobile app — token economy with rewarded ads.
- DarkMatter** .NET 10 · CQRS · React
End-to-end Discord bot platform — bot, API & admin panel.
- Multi-Agent AI System** LangGraph · FastAPI · React
Multi-agent orchestration with state-aware agent flows.
